

SPOKANE FALLS COMMUNITY COLLEGE

AT FAFB

WINTER 2010 QUARTER CLASSES

Winter Classes	Inclusive Dates : Jan 4 - Mar 24, 2010	Date/Time/Location	Instructor	Item No.
BIO& 160 – General Biology w/Lab (5 cr) An integrated view of the living world including the nature of sciences, evolution of biological organization, composition and organization of living substances, metabolism, control, reproduction, heredity and ecological relationships.		Monday/Wednesday 5:00 - 8:30 pm Room 216	Staff	3205
CMST& 101 – Introduction to Communication (5 cr) This course surveys the field of communication. It teaches students the theories and skills associated with effective interpersonal, small group, and public communication. Emphasis is on in-class activities and on improving the student's confidence in a variety of communication settings. Students receive at least 11 (eleven) hours of instruction in topical research, speech organization and support, and writing expository and persuasive prose for the purpose of oral delivery in an academic setting.		Monday/Wednesday 5:30 - 8:00 pm Room 208	Staff	3097
ENGL& 101 – English Composition I (5 cr) This course develops and sharpens the basic principles of writing college-level essays. Students work on a series of essays to improve their ability to write clear, detailed prose and to use texts to support their claims. Competence in mechanics and standard English usage is assumed of all students taking ENGL& 101.		Tuesday/Thursday 5:30 - 8:00 pm Room 208	Staff	3110
Hum 141 – Introduction to Film (5 cr) This course is a basic introduction to how films communicate meaning and influence society. The course gives the students an understanding of film forms, techniques and styles. Students develop a critical viewpoint and be able to explain the many ways in which film communicates. The overall goal of the course is to produce perceptive and sensitive film viewers. Feature-length films are viewed in class.		Wednesday 5:30-9:30pm (Hybrid) Room 106	Broughton	3114
MATH 091 – Elementary Algebra I (5 cr) This course covers beginning algebra concepts for students without high school algebra or those who need a review. Topics will include real numbers, algebraic expressions, equations and inequalities, polynomials and graphing. Other topics may include factoring.		Online Class Arranged Time	Online Class	2761
MATH 092 – Elementary Algebra II (5 cr) This course is a continuation of MATH 091. Topics include factoring, rational expressions, linear equations in two variables and systems of equations. Other topics may include radicals and quadratic equations.		Online Class Arranged Time	Online Class	2762
MATH 099 – Intermediate Algebra (5 cr) This course covers intermediate algebra skills. Topics include a review of beginning algebra concepts, radicals, inequalities, functions and quadratic functions. Other topics may include exponential and logarithmic functions.		Online Class Arranged Time	Online Class	2763
MATH& 107 – Math in Society (5 cr) This course covers an option for students needing to satisfy a post-intermediate algebra requirement in which the field of study does not necessitate a specific course. Traditional coursework is combined with a discussion of what mathematics is and does. In addition to an examination of problem-solving techniques, specific topics may vary at the discretion of the instructor. This is a hybrid course.		Monday/Wednesday 5:30-7:00pm (Hybrid) Room 212	Staff	3250
MUSC 109 – World Music (5 cr) This course explores several musical cultures throughout the world, including but not limited to Africa, the Americas, Asia, Near East, Europe and South Pacific. The course is designed to enhance student's appreciation for the diversity of music throughout the world as well as the people that perform it. Students gain an understanding of features in the music that distinguish one style from another and the cultural and social-historical factors that shape the development of music. Lectures, films, recordings and live presentations assist students in their understanding of course topics. Though a knowledge of music is helpful, a music background is not required for this course.		Online Class Arranged Time	Online Class	6350
PSYC& 100 – General Psychology (5 cr) A general survey of the following areas of psychology: physiology, sensation/perception, cognition/memory, motivation, learning, development, social, intelligence, personality, mental health and scientific method.		Monday/Wednesday 5:30-8:00pm Room 201	Taylor	3268
