Inclusive Dates: Jan 4 - Mar 21, 2012	Date/Time/Location	Instructor	Item #
<p><b>BIOL&amp; 160 – General Biology w/Lab (5 Qtr cr)</b> An integrated view of the living world including the nature of sciences, evolution of biological organization, composition and organization of living substances, metabolism, control, reproduction, heredity and ecological relationships. (CCAF = Elective)</p>	<p>Monday/Wednesday 5:00 - 8:30pm Room 216</p>	<p>L Coles</p>	<p>3417</p>
<p><b>CMST&amp; 101 – Introduction to Communication (5 Qtr cr)</b> This course surveys the field of communication. It teaches students the theories and skills associated with effective interpersonal, small group, and public communication. Emphasis is on in-class activities and on improving the student's confidence in a variety of communication settings. Students receive at least 11 (eleven) hours of instruction in topical research, speech organization and support, and writing expository and persuasive prose for the purpose of oral delivery in an academic setting. (CCAF = Oral Communication)</p>	<p>Tuesday/Thursday 5:30 - 8:00pm Room 212</p>	<p>J Becker</p>	<p>3325</p>
<p><b>ENGL&amp; 102 – English Composition II (5 Qtr cr)</b> This course teaches students research skills by emphasizing the development of critical reading habits, investigative proficiency, and the writing of expository and persuasive prose including documented research essays. Students work to understand academic audiences, increase their clarity and objectivity, and adhere to standard formats. (CCAF = Written Communication)</p>	<p>Wednesday (Hybrid) 5:30 - 8:30pm Room 209</p>	<p>A Dotson</p>	<p>3340</p>
<p><b>Hum 141 – Introduction to Film (5 Qtr cr)</b> This course is a basic introduction to how films communicate meaning and influence society. The course gives the students an understanding of film forms, techniques and styles. Students will develop a critical viewpoint and be able to explain the many ways in which film communicates. The overall goal of the course is to produce perceptive and sensitive film viewers. Feature-length films are viewed in class. (CCAF = Humanities)</p>	<p>Wednesday (Hybrid) 5:30 - 9:30pm Room 102</p>	<p>RI Broughton</p>	<p>3345</p>
<p><b>POLS&amp; 202 – American Government (5 Qtr cr)</b> The basic course develops an understanding of American politics and political institutions, the philosophies and concepts of American constitutionalism, and the structure and operation of the American form of government. Emphasis is placed on the theories and practice of democracy, pluralism and elitism. (CCAF = Social Science)</p>	<p>Tuesday (Hybrid) 11:00am - 1:30pm Room 109</p>	<p>S Moore</p>	<p>3196</p>

Winter Quarter 2012 Classes

# Online Classes

Inclusive Dates: Jan 4 - Mar 21, 2012	Date/Time/Location	Instructor	Item #
<p><b>ASTR&amp; 100 – Survey of Astronomy (5 Qtr cr)</b>                      This course is a survey of astronomy including history, the solar system, stellar evolution and cosmology. While some laboratory work and field trips are elements of this course, it does not qualify as a laboratory science. Credit will not be granted for both ASTR&amp; 101 and 100. This is a physical science course. (CCAF = Elective)</p>	Online Class Arranged Time	J Whitmer	2559
<p><b>MATH 90 – Pre Algebra I (5 Qtr cr)</b>                      A course intended for students who have studied arithmetic but who are not ready for elementary algebra. Numerous introductory topics from grades 9 through 12 are covered which may include operations with signed numbers and rational numbers, simple algebraic equations, properties of real numbers, prime numbers and factoring, exponents and roots, geometric concepts, basic graphs, metrics, basic inequalities, or absolute value.</p>	Online Class Arranged Time	B Vredevelt	3045
<p><b>MATH 91 – Elementary Algebra I (5 Qtr cr)</b>                      This course covers beginning algebra concepts for students without high school algebra or those who need a review. Topics will include real numbers, algebraic expressions, equations and inequalities, polynomials and graphing. Other topics may include factoring.</p>	Online Class Arranged Time	K Glubrecht	3048
<p><b>MATH 92 – Elementary Algebra II (5 Qtr cr)</b>                      This course is a continuation of MATH 091. Topics include factoring, rational expressions, linear equations in two variables and systems of equations. Other topics may include radicals and quadratic equations.</p>	Online Class Arranged Time	B Vredevelt	3051
<p><b>MATH 99 – Intermediate Algebra (5 Qtr cr)</b>                      This course covers intermediate algebra skills. Topics include a review of beginning algebra concepts, radicals, inequalities, functions and quadratic functions. Other topics may include exponential and logarithmic functions.</p>	Online Class Arranged Time	B Harras	3054
<p><b>MMGT 101 – Principles of Management (5 Qtr cr)</b>                      Fundamental principles of management as applied to business enterprise. Actual business situations are studied by applying basic management principles. (CCAF = Management)</p>	Online Class Arranged Time	C Barker	0192
<p><b>MMGT 231 – Human Resource Management (5 Qtr cr)</b>                      Techniques and principles of personnel supervision and administration including employee recruitment, job analysis, affirmative action, labor relations, compensation, performance appraisal, interviewing, motivation, training and development, and employee health and safety.                      (CCAF = Management)</p>	Online Class Arranged Time	C Barker	0193
